Mosaicos gêmeos

5º ano | 2026-11-02 | Atividade

Cada mosaico é uma pequena grade de quadradinhos. Um quadradinho pode estar vazio, escuro ou ter uma bolinha laranja. Compare quadradinho por quadradinho e encontre o mosaico que é igual de verdade. Cada exercício tem uma única resposta certa.

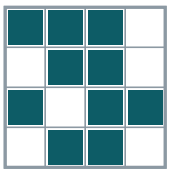

O gêmeo foi girado no sentido horário, mas nunca virado do avesso. Circule-o e escreva o giro: 90°, 180° ou 270°.

Mosaicos gêmeos

5º ano | 2026-11-02 | Gabarito

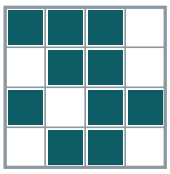

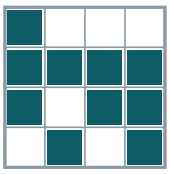

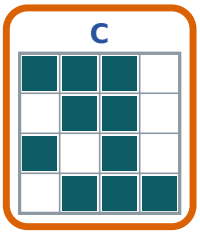

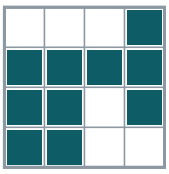

Os anéis laranja mostram os gêmeos; o giro no sentido horário está escrito embaixo do modelo. As notas vermelhas dizem por que os outros foram descartados: virado = imagem de espelho, trocado = dois quadradinhos mudaram de lugar.
