Zwillingskacheln

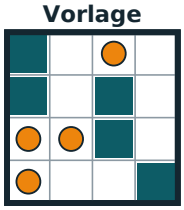

3. Klasse | 2026-11-02 | Arbeitsblatt

Jede Kachel ist ein kleines Gitter aus Kästchen. Ein Kästchen kann leer oder dunkel sein oder einen orangen Punkt haben. Vergleiche Kästchen für Kästchen und finde die Kachel, die wirklich gleich ist. Jede Aufgabe hat genau eine richtige Lösung.

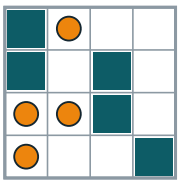

Prüfe die Vorlage Zeile für Zeile. Nur eine Kachel stimmt Kästchen für Kästchen überein; bei den anderen haben zwei benachbarte Kästchen die Plätze getauscht.
