Zwillingskacheln

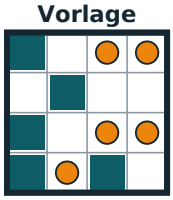

4. Klasse | 2026-11-02 | Arbeitsblatt

Jede Kachel ist ein kleines Gitter aus Kästchen. Ein Kästchen kann leer oder dunkel sein oder einen orangen Punkt haben. Vergleiche Kästchen für Kästchen und finde die Kachel, die wirklich gleich ist. Jede Aufgabe hat genau eine richtige Lösung.

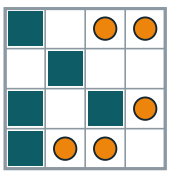

Jetzt gibt es fünf Möglichkeiten. Decke mit einem Papierstreifen alles bis auf eine Zeile ab, vergleiche und schiebe den Streifen weiter. Kreise den genauen Zwilling ein.
