যমজ টালি

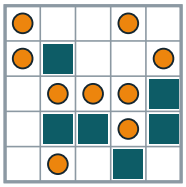

৭ম শ্রেণি | 2026-11-02 | অনুশীলনী

প্রতিটি টালি ছোট ছোট ঘরের একটি জাল। কোনো ঘর ফাঁকা, গাঢ় বা কমলা বিন্দুওয়ালা হতে পারে। একটি একটি করে ঘর মিলিয়ে দেখো এবং যে টালিটি সত্যিই হুবহু এক, সেটি খুঁজে বের করো। প্রতিটি প্রশ্নের একটিই সঠিক উত্তর।

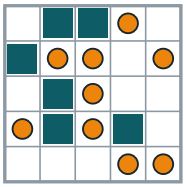

চারটি টালি একই টালি, শুধু ভিন্ন ভিন্ন দিকে ঘোরানো। একটি আলাদা: সেটি উল্টানো হয়েছে, নয়তো তার দুটি ঘর অদলবদল করা হয়েছে। সেটিতে গোল দাগ দাও।

যমজ টালি

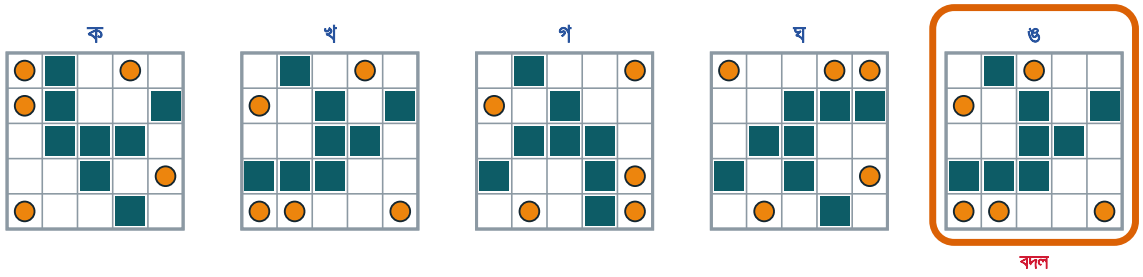

৭ম শ্রেণি | 2026-11-02 | উত্তরমালা

কমলা বৃত্ত আলাদা টালিটি দেখায়। লাল টীকা কারণ বলে: উল্টানো = বাকিগুলোর আয়নার প্রতিবিম্ব, বদল = দুটি ঘর জায়গা বদল করেছে।
